Scene It

Read the clues given for each element's block location and place them in their respective block by writing their symbols.

I am the first one to occupy the Periodic Table, and live in the highest purple block, a little far from my family in the purple non-metal zone.

I live two floors down from Hydrogen in the orange alkaline earth metal zone.

I live in the highest block in the brown noble zone.

I live right across the street from Magnesium in the green basic metal zone.

My block is before Nitrogen and Oxygen in the purple non-metal zone.

I live in the same lane as Aluminium but my flat is in the purple non-metal zone and after my flat pink zone starts.

To my left lives Carbon and to my right lives oxygen in the purple non-metal zone.

I live on the floor right below magnesium in the orange alkaline earth metal zone.

I live in the same lane and in the purple nonmetal zone where Carbon and Nitrogen live.

I live in the pink halogen zone. I have three floors above and two floors below my floor.
