5	1995	Bridging the Technical Vocabulary Gap of Students 為中學生填補技術詞彙方面的差距	Robert Kwith Johnson & May Fan	The project was divided into three phases. Phase I of the study identified the size and nature of the problem of 're-coding' technical vocabulary for students moving from secondary schools using Chinese as the medium of instruction (CMI) to tertiary instruction using English as the medium of instruction in seven major subjects. It also identified the vocabulary learning strategies that these students used relatively frequently. Phase II of the study identified the effects on learning outcomes of six different methods of presenting technical vocabulary for re-coding. Phase III involved the development, trial and production of self-access re-coding materials for use by CMI students.
6	1995	To Improve the Quality of Written English in the Business Community in HK 改善香港商界人士書寫中英文的質素的計劃	Hong Kong Society of Accountants 香港會計師公會	This study provided a detailed inventory of the problems perceived by the employers and employees in the accounting profession and an analysis of the needs of the business community, along with recommendations to address the problems identified.
7	1995	Language in Education: Academic and Practical Perspectives 語文教育：學術性及實用的觀點	The University of Hong Kong 香港大學	Four collections of papers on research studies of English and Chinese language education and practical ideas for teaching English language and Chinese language were published. The papers were based on the contributions to the International Language in Education Conference 1994.
